2. MAP SCREEN

US1020LIa
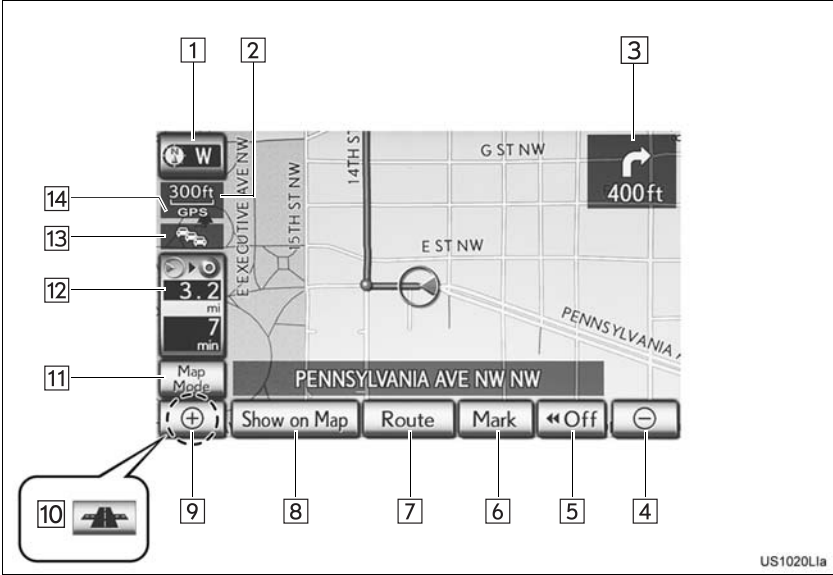

No.	Name	Function	Page
1	North-up or heading-up symbol	This symbol indicates whether the map orientation is set to north-up or heading-up. Selecting this symbol changes the map orientation. Both north-up and heading-up symbols display the vehicles direction as a letter (e.g. N for north).	47
2	Scale indicator	This figure indicates the map scale.	45
3	Turning direction indicator	This figure displays distance to the next turn and an arrow indicating the turning direction during route guidance.	89
4	Zoom out button	Select to reduce the map scale.	45
5	"◄◄ Off"	Select to obtain a broader view. Some of the buttons on the screen will not be displayed. They are displayed again by selecting **"On ►►"**.	131
6	"Mark"	Select to register the current position or the cursor position as an address book entry.	40
7	"Route"	Select to change the route.	96, 98

| No.	Name	Function	Page
8	"Show on Map"	Select to browse information about guidance route, to set the POI (Point of Interest) icons to be displayed on the screen, to record the route, etc.	103, 179, 205
9	Zoom in button	Select to magnify the map scale.	45
10	Foot print map button	Select to display the foot print map and the building information.	46
11	"Map Mode"	Select to display the "Map Mode" screen.	43
12	Distance and time to destination	Select to display the distance, estimated travel and arrival time to the destination.	95
13	XM indicator	This mark is displayed when XM information is received.	177, 179
14	"GPS" mark (Global Positioning System)	Whenever the vehicle is receiving signals from the GPS, this mark is displayed.	140

"PWR·VOL" knob: Press and hold for 3 seconds or more to turn off the screen and restart the navigation system. Do this when the vehicle-mounted device response is extremely slow.

(INFORMATION)

● Remove dirt from the display and its surrounding area by lightly wiping with a soft, dry cloth, such as a cloth used for cleaning glasses with plastic lenses. Scrubbing too hard or using a hard cloth could scratch the display. Also, the display is treated with a coating, and could be damaged by coming into contact with benzine or alkaline solution.

● When the screen is viewed through polarized sunglasses, a rainbow pattern may appear on the screen due to optical characteristics of the screen. If this is disturbing, please operate the screen without polarized sunglasses.

● When the vehicle travels out of the coverage area, the guidance screen changes to the compass mode screen.
Information about the destination, current position and a compass is displayed on the compass mode screen.
Also the destination mark is displayed in the direction of the destination. When driving, refer to the longitude and latitude coordinates, and the compass, to make sure that the vehicle is headed in the direction of the destination.
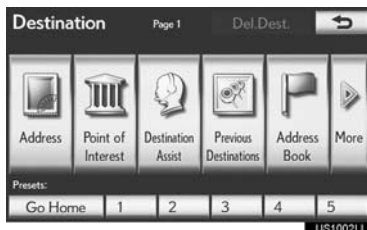

3. REGISTERING HOME

1 Press the "MENU" button on the Remote Touch.
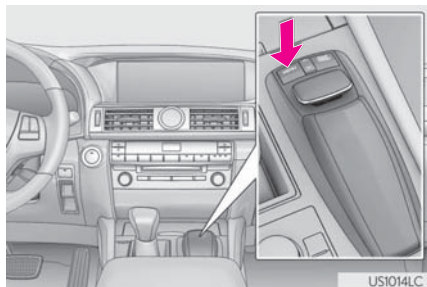

2 Select "Destination" and press the Remote Touch knob.

3 Select "Go Home" and press the Remote Touch knob.

If a home address has not been registered, it can be registered by selecting **"Go Home"**.

4 Select "Yes" and press the Remote Touch knob.

5 There are 4 different methods to search your home. (See "DESTINATION SEARCH" on page 66.)

6 Select "Enter" and press the Remote Touch knob.

The "Edit Home" screen is displayed.

7 Select "OK" and press the Remote Touch knob.
